announcements

At Virginia iSpine Physicians, we believe in helping our patients reconnect with what is meaningful to them. We strive to improve patients' quality of life using minimally invasive procedures and innovative therapies to promote wellbeing. Our practice is actively involved in advancing spine research and we are excited to announce future treatments such as acupuncture, massage therapy, and electromagnetic field therapy. The staff at Virginia iSpine Physicians specialize in caring for patients with painful spine disorders and exercise a team-based approach to improve patient's level of function and quality of life.
